

TO ALL OF OUR VALUED MEMBERS

The past fourteen months have been quite an experience for all of us but, finally, there's light at the end of the tunnel! To those members who came back to Vision once we were allowed to reopen, thank you for your trust and support. For those of you who have been waiting a bit longer, we totally understand and hope now that the guidelines have changed you will come back. But as of tomorrow, May 19th, we can really start to return to normal!

Yesterday, Governor Cuomo announced that New York would abide by the recent CDC guidelines which provides that anyone who has been fully vaccinated can go "mask-less" both outside and inside. We, at Vision, don't have to tell you how important that is in the world of fitness. What this means for health clubs is that those members who are fully vaccinated can now work out and participate in classes without wearing a mask. This return to normalcy is huge!!

Those of you who have not been fully vaccinated will, of course, adhere to all previously established and required guidelines while in the facility. We would ask all members to respect your fellow members' privacy and space. We are all here together for the same purpose, to become and stay healthy and fit.

The best mask in the world is a strong immune system and a strong immune system is built here at Vision Sports Club!

Welcome back to Vision, we've missed you. Here's to our future together!
